

Screen Porch Planning Worksheet

1 square : 1 foot | See Page 2 for Blank Grid

NAME _____

PHONE _____

Sketch an elevation of each side of your porch. Note the horizontals and verticals. How many verticals are above the rail? How many are below?
 Note posts and rail sizes – 4x4 or 2x4. Depending on your screening system of choice, the exact materials and components will vary.

A large grid area provided for the user to sketch their own porch elevations.

Calculate the materials you will need at www.ScreenTight.com/screen-porch-calculator
