

MeshGuard Porch Screening System

Homeowner Pricing

The MeshGuard porch screening system is a code-compliant alternative to pickets, cable rail or other visual obstructions in the infill area below the porch handrail. MeshGuard is approved for infill areas up to 6-ft x 3-ft and all five components are required – *with absolutely no substitutions*. For more information on building code compliance, see the International Code Council (ICC) report ESR-3938.

BOX QTY	PART #	PRODUCT DESCRIPTION	UNIT PRICE	BOX PRICE
20	BASE18MG	MeshGuard Base - 1 ½ in x 8 ft	\$4.75	\$95
